## RAILWAY TIPS.

The C., M. & St. P. offers first class train service to Chicago and Kansas City, from the tri-cities, sleeping car reservations made to any point desired. For further information 'phone any of their offices.

**C., M. & St. P. Excursion Rates.**  
Homeseekers' tickets on sale the first and third Tuesday in each month to points in Iowa, Minnesota, North and South Dakota and to other homeseekers' territory. For further information 'phone or call at any C., M. & St. P. office.

**Low Rates.**  
Annual meeting benevolent and protective order of Elks, Denver, Colo., July 15, 21, 1936. \$22.40 to Denver, Colorado Springs and Pueblo and return (\$22.40) via the C., M. & St. P. railway. Tickets on sale July 10 to 15 inclusive. Return trip will not be earlier than July 16 nor later than August 20, 1936. Stop overs will be granted on return trip at intermediate Colorado common points and Cheyenne with in final limit. Half rate excursion

tickets for children under 12 years of age.

**Homeseekers' Excursions.**  
To points on C. M. & St. P. railway, every Tuesday, April to December, 1936. Also to Alberta, Manitoba, Michigan, Minnesota, North and South Dakota, Ontario, Saskatchewan and Wisconsin homeseekers' territory, every Tuesday rate: One first class limited fare plus \$2 for the round trip. For further information call or phone any C. M. & St. P. ticket office. Both phones.

**A Case For Sympathy.**  
"I have three children, who are the very image of myself," said Jones enthusiastically.  
"I pity the youngest," returned Brown quietly.  
"Why?" asked Jones.  
"Because he is the one who will have to resemble you the longest," said Brown.—T.H.B.

Nowhere in the world can you see such handsome men and women as are to be met in the United States. They all use Hollister's Rocky Mountain Tea. 35 cents, tea or tablets. T. H. Thomas' pharmacy.

## S.S.S. PURELY VEGETABLE

The fact that S. S. S. is a purely vegetable preparation, containing not the slightest trace of mineral in any form, has been one of the strongest points in its favor during its forty years of existence. It is recognized everywhere not only as the best of all blood purifiers, but the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels and so damaging the system that even if the original cause of the disease has been removed, it is left in such a deranged and weakened condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral property in some form. Being made entirely of roots, herbs and barks it is absolutely harmless to any part of the system, and while curing disease adds strength and health to every part of the body. S. S. S. removes all poisons, freshens and purifies the blood and gives better and more lasting results than any other blood medicine. S. S. S. is the very best treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison and all troubles due to an impure or poisoned blood supply. Besides being the King of blood purifiers S. S. S. is the best and most invigorating of all tonics.

## Rising Young Players

**Matthew Fitzgerald and Henry Mathewson, a Likely New New York National Battery—Their Careers to Date—Catcher Thomas.**

The New York National league club has, upon recommendation of ex-Pitcher Frank Killen, signed for trying out a young catcher named Matthew Fitzgerald, a native of Albany, N. Y.

Fitzgerald is twenty-two years old, stands five feet ten inches in his baseball shoes and weighs 185 pounds. He

**PITCHER HENRY MATHEWSON.**  
is a temperate young man, of excellent habits and good education. Recently he was married to an Albany girl.

He first attracted attention as a member of the Catholic Union team of Albany. He caught in brilliant fashion last season for the Sharon (Pa.) team, which was managed by Killen.

Hugh Duffy made him a Philadelphia offer, which he declined. Killen thinks that Fitzgerald will develop into one of the best batting and base running catchers in the National league. He is very fast getting down to first base, and because of this Killen instructed him to bat left handed.

Sharon played only the best semi-professional teams, and Fitzgerald's average is therefore indicative of real ability. He is said to possess a fine throwing arm, and, above all, he has a head and can keep it during a game.

Ira Thomas, the rising young catcher of the New York American league club, was born in Ballston Spa, N. Y., Jan. 22, 1881. In his youth he moved to Collinsville, N. Y., where he still makes his winter home, and played with independent clubs at both places.

He first played professionally in 1903 with the Hartford club of the Connecticut league. Toward fall he was sold to the Newark Eastern league club and finished the season there.

In the spring of 1903 he refused to accept Newark's terms and was sold to Providence, where he played two seasons under Managers Tom Daly and Jack Dunn, and made such strides in his profession that last season he was unquestionably the star catcher of the Eastern league and a rich plum for which several major league clubs contended. New York carrying off the prize.

In Henry Mathewson, Christy's brother, Manager McGraw of the New York Nationals believes he has a youngster who will make good in the major league arena. "Matty" has recommended his "kid" brother so highly that McGraw feels confident Henry

**CATCHER MATTY FITZGERALD.**  
will develop into a star, although he does not look for good results this season.

Matty unhesitatingly says his brother will make good. "He now has as much speed as I had when I broke into the game," says Christy, "and he has control and a splendid assortment of curves. All he wants is experience, and with that I am sure he will develop into a star."

This "kid," as Matty calls his brother, is nineteen years old, is six feet tall and weighs 185 pounds. For the last two years he has been pitching on semi-professional teams in Lewisburg and Scranton, Pa., with good results.

## CAMPING ON THE HUDSON.

**Popular Site on West Bank Saved by Hook Mountain Bill.**

Now that Governor Higgins of New York has signed the Hook mountain bill and the future of Palisades park is assured more camping parties than ever, it is expected, will use the west bank of the Hudson this summer, says the New York Tribune. A large number of permits have already been issued by the Palisades park commissioners, and as the season advances applications will come in faster and faster. The precautions taken by the commission in the last year or so to insure good order along the water front from Fort Lee to Piermont, twenty miles up the river, have resulted in making river camping a popular form of outing. At various times last summer there were as many as a thousand persons camping along the shore of the river within the limits of the park. From the rate at which applications for permits are now being received the commissioners have no doubt that this record will be surpassed this year.

The only police force found necessary is a small launch in charge of a marshal, which patrols the shore, protects the preserve from vandalism and suppresses any incipient disorder. The work of the regular police force is supplemented by voluntary assistance from the campers themselves, especially the members of the various canoe associations, to whom the park is too valuable as a camping ground to risk losing. Then as much care as possible is taken to see that permits are issued only to persons who can be trusted with them.

"Of course we can't tie the whole matter up in red tape," said J. Duprat White, the secretary of the commission, "but we do what we can to see that the permits get into the right hands. A little while ago we rejected an application from one man because he had caused trouble last year. But, as a matter of fact, there is really very little disorder. The other campers don't want it and won't stand for it. Personally I think more use will be made of the park all the time. We are just beginning to realize what natural advantages New York has. The city is going to spend \$2,000,000 on a seaside park somewhere, but it would be hard to find a better place for a few days out of doors than the west bank of the Hudson."

The land now embraced by Palisades park and available for camping purposes is a strip about twenty miles long, shut in on one side by the river and on the other by the steep cliffs of the Palisades. Well wooded and comparatively free from undergrowth, there is an abundance of good sites for camps. For canoeing, rowing and swimming this part of the Hudson could hardly be improved upon. As the channel for all heavy craft lies close to the eastern bank, the swells from passing steamers do not disturb the shallow water of the western shore, sheltered, moreover, by the high rock wall above. And finally, as neither time nor money is necessary to reach the park from the heart of the city, it is within reach of all who have holidays.

## NATIONAL SONG GREETING.

**Feature Planned For Pan-American Congress at Rio.**

Here is an item of information that ought to bring a ray of happiness to the delegates to the pan-American congress, which will open at Rio on July 20, says the New York Tribune. It is a long and warm trip of nearly three weeks to Rio, but through the thoughtfulness of the Brazilian government the humid days in the city just below the equator will be made as pleasant for the representatives of the different republics that will take part in the congress as it is possible to make them.

Among the things thought of to please the diplomats and at the same time show the extensive repertoires of the Brazilian bands is to collect the scores of the national hymns of all the countries that will be represented.

The government at Rio has instructed the Brazilian consulate in New York city to collect these scores. So the American delegates will be greeted with "The Star Spangled Banner," the Cubans with the "Hymno Bayamo" and the Venezuelans with "Viva, Bravo Pueblo."

## ESPERANTO STUDYING CLUB

**Chicagoans Form Society to Master New Universal Language.**

The study of Esperanto, the new universal language, is to be taken up by a club formed in Chicago recently under the leadership of F. C. Morin of Chicago, vice president of the American Esperanto association, says the Chicago Tribune. Esperanto is described as an auxiliary for the benefit of tourists and tradesmen. By its use one can transact business with persons speaking other tongues without the necessity of learning the 200 odd languages of the world.

The following specimen of Esperanto illustrates its structure, the second paragraph being a literal translation in English of the first:

Simpia, fleksibla, belsona, vere internacia en siaj elementoj, la lingvo Esperanto prezentas al la mondo civiliza la solonveran solvon de lingvo internacia. Simple, flexible, harmonious, truly international in its elements, the language Esperanto presents to the world civilized the sole true solution of a language international.

**Kauffman's Useful Automobile.**  
A farmer in McPherson county, Kan., makes his automobile do double duty, says the Kansas City Journal. He uses it in the daytime to run errands and to oversee things on the farm. At night he jacks it up off the ground, connects it with a small dynamo and supplies his home with electric lights.

Do away with the washboard and let Maple City Self-Washing Soap do your work while you rest. It will mean an end to tired backs, to bruised knuckles, to rubbed-out clothing. What now requires a whole day will take but two or three hours, and you will be better satisfied with your washing. Positively no rubbing required. The greater part is over when you get the clothes in the boiler.

## Maple City Self Washing Soap

is distinctively a soap for boiling—the only hygienic and thorough way to cleanse clothes. It has remarkable bleaching properties, and imparts that beautiful snowy whiteness so much desired by housewives. Will not fade colored clothes. Perfect results with hard water as with soft. Maple City Soap contains no chemicals nor rosin, and will not harm the most delicate fabrics, neither will it shrink woolens. It is the most economical soap in the world, for a 5-cent bar lasts as long as two of common soap.

At All Grocers.  
MAPLE CITY SOAP WORKS,  
Monmouth, Ill.

## College Sport.

**Affairs at Michigan—Princeton Is Baseball Champion of East.**

The University of Michigan had a hard time in getting many of her athletes to pass successfully the inspection of the conference officials. The records of some of the Michiganders proved not to be above suspicion. Perhaps the rivals of Michigan consider a better balance of athletic power will be struck if some of the Ann Arbor candidates are disqualified each year.

Michigan footballists are looking forward eagerly to the game next fall with the University of Pennsylvania. "We must win that Pennsylvania game next fall," said Captain Curtis to the spring candidates recently. "If we do not all the work done by Manager Baird to get us into athletic relations with the east will be well nigh destroyed. The easterners will shrug their shoulders and say if we lose: 'Knew it all the time. They can't play football out west.'"

"This is the great Michigan team, four times winner of the western championship. We've got to make a most creditable showing on Franklin field, Philadelphia, Nov. 17, and the most creditable we can make will be a winning game."

Chief among the new candidates for the Michigan eleven are Casey, the Iowa Normal college tackle, and Bill Coe, the shot putter.

If the new pole vaulting record of Le Roy Sams of the University of Indiana is accepted as official by the A. A. U., he will lead the world. His vault of 12 feet 4 1/2 inches at the recent conference meet at Evanston, Ill., is the highest ever recorded. The marks of A. C. Gilbert of Yale and Dole of California (Stanford university) were

eclipsed by the Hoosier wonder. Not content with setting the record at 12 feet 4 1/2 inches, Sams had the bar raised two and a half inches, but failed to do the new height by the narrowest possible margin, just tipping the bar as he went over.

The crowd remained until the finish of the pole vault, which came long

rear. A boiler shop is no place for such a man.

"I know I was like this," said the applicant, "but I didn't know all half deaf people were."

"They all are," said the boilermaker, "and my shop is no place for them."—Philadelphia Bulletin.

All a Matter of Doubt Anyway.

A young man from the south who a few years ago was so fortunate as to be enabled to enter the law offices of a well known New York firm was first intrusted with a very simple case. He was asked by the late James C. Carter, then a member of the firm, to give an opinion in writing. When this was submitted it was observed by Mr. Carter that, with the touching confidence of a neophyte, the young southerner had begun with the expression, "I am clearly of opinion."

When this caught his eye he smiled and said:

"My dear young friend, never state that you are clearly of opinion on a law point. The most you can hope to discover is the preponderance of the doubt."—Success.

## Why Run the Hazard

of accepting personal security upon a bond, when corporate security is vastly superior?

The personal surety may be financially strong to-day and insolvent to-morrow; or he may die, and his estate be immediately distributed. In any event, recovery is dilatory and uncertain.

Because of its greater stability, the United States Government prefers Corporate Suretyship. Follow its example, and, when you require suretyship of any kind, insist upon having the bond of the largest company in the world whose business is restricted to furnishing suretyship obligations.
